Shape and Growth:	Weeping
Plant Type:	Ornamental flowering tree
Flower:	White, single
Bloom Time:	Spring
Fruit:	1/8" black, few
Foliage:	Dark green
Zone:	4
Light:	Full sun or partial shade, pH 6.0-7.5
Soil:	Moist, well-drained
Pruning or Shearing:	Shape only if desired
Landscape Uses:	Utilize as a specimen or focal point in the landscape, in groups, unstaked as a ground cover or cascading over a wall, easily espaliered on a fence, trellis or building
Origin/Parentage:	Selected by Jim Zampini
Propagation:	Summer mist cuttings, budding or top grafting
Disease Resistance:	Excellent
Environmental Benefits:	Attracts bees

- Truly has four seasons of beauty
- Many forms provide multiple uses in the landscape: grown from a cutting or bottom budded means branching along the trunk, top grafted at different heights, un-staked as a ground cover or hanging over a wall, espaliered on a building, arbor or trellis
